

# Updates to your prescription benefits

Effective July 1, 2016

Within the Prescription Drug List (PDL), medications are grouped by tier. The tier indicates the amount you pay when you fill a prescription. Please reference this chart as you review the following updates. Most options listed are available in Tier 1, your lowest cost option.

 <b>Tier 1</b> Your lowest-cost medications	 <b>Tier 2</b> Your mid-range cost medications	 <b>Tier 3</b> Your highest-cost medications
--	---	---

**If your medication is listed below**, you may continue taking it, but you may pay a higher cost. We encourage you to discuss the listed lower-cost option(s) that may also treat your condition with your doctor. Most options listed are available in Tier 1, your lowest-cost tier, and may have a clinical program in place.

## Medications moving to a lower tier

The following medications are moving to a lower tier, making them more affordable. Down-tiers occur throughout the year, helping members take immediate advantage of the cost savings.

Therapeutic Use	Medication Name	Tier Placement
Cancer	Targetin Capsules	<b>3</b> ▶ <b>2</b>

## Medications with new benefit coverage

The following medications were previously not covered under most benefit plans and are now eligible for coverage.

Therapeutic Use	Medication Name	Tier Placement
Asthma/COPD	Symbicort	<b>3</b>
	Seebri NeoHaler	<b>2</b>
	Utibron NeoHaler	<b>2</b>
Cough/Cold	Obredon	<b>3</b>
