

PRESS RELEASE

March 22, 2017

Saline County Airport Ramp Expansion Project Completed – Saline County Regional Airport has completed a Corporate Aircraft Hangar Ramp Expansion project. This ramp expansion will allow Saline County Regional Airport to develop five Corporate Hangar lots which will generate revenue for the Airport through land lease agreements with future tenants. The entire project, which is valued at \$752,872.00, was completed through an FAA Airport Improvement Project (AIP) grant in the amount of \$677,584.00, and a land match from the Airport in the amount of \$75,288.00. We look forward to the growth that will be generated by the ramp expansion and are excited to offer our services and facility to include the corporate sector.

Dane Pruitt
